Big Wi-Fi for Your Business.

Next generation Wi-Fi for all your business needs including hotspot access for your guests and secure Wi-Fi for your employees and business data. Access points for Wi-Fi are mobile ready supporting smartphones, tablets, and more with fast and reliable Wi-Fi connectivity.

A New Way to Wi-Fi.

Next generation Wi-Fi for all your business needs including hotspot access for your guests and secure Wi-Fi for your employees and business data. Access points for Wi-Fi are mobile ready supporting smartphones, tablets, and more with fast and reliable Wi-Fi connectivity.

Wi-Fi for the Non-IT Guy.

Quadra Technology Group can help you in setting up a reliable Wi-Fi network without requiring and expensive investment. We can quickly set up a secure and reliable Wi-Fi network for your business with access points around your organization leaving you free to focus on your business.

Access points provide superior functionality, elegant simplicity, and competitive pricing for businesses. Our access points combine versatility with the latest 802.11ac Wi-Fi technology to deliver speeds up to 1.167 Gigabits per second. These access points are designed for easy installation with ultra-lightweight and low profile enclosures. These access points are ideal for public venues, marinas, and hotels who need Wi-Fi.
